Professional Summary

Technology & Business enthusiast with a strong interest in AI, business development, and software solutions. Quick learner with effective communication, analytical thinking, and teamwork skills, eager to contribute to technology-driven organizations while continuously growing professionally.

Education

B.Tech – Computer Science & Engineering (Artificial Intelligence) 2023–2027
Anand International College of Engineering, Jaipur
Current CGPA: **8.93**
Areas of Interest: Business Technology, AI & Robotics, Software Solutions, Data Analysis

Technical Proficiencies

Programming: Python, C++
Technologies: Salesforce Platform, AI/ML (Fundamentals), DevOps Basics, IoT, OOP Concepts
Tools: Git, GitHub, Salesforce Developer Console, Arduino IDE, MySQL (Basic)

Projects

Smart Surveillance System 2025–Present
- Designed an AI-powered surveillance system for real-time human detection and automated event recording.
- Implemented motion-triggered recording to reduce storage usage, server load, and manual monitoring.
- Built using Python, OpenCV, and Computer Vision with timestamp-based event logging.

Apps Script Automation 2025–Present
- Developed Google Apps Script automation to streamline repetitive tasks, improve efficiency, and reduce manual effort.

Real-Time Orbital Telemetry Dashboard & AI-Ready Analytics Engine 2026
Technologies: Salesforce Aura, Apex
- Developed a Salesforce Aura application to monitor live satellite positions using.
- Integrated JavaScript polling, HTML5 Geolocation, and Salesforce custom objects for telemetry storage and AI-ready analytics.

3D Printer Material Prediction 2025
- Applied machine learning techniques to recommend suitable printing materials, improving print quality and material selection.

Professional Attributes

Effective Communication | Analytical Thinking | Adaptability | Detail Oriented

Training & Certifications

Salesforce Training – Upflairs 2026
NPTEL Software Conceptual Design – NPTEL Aug 2025 – Nov 2025
Spoken Tutorial (C++, Java, Linux, Python) – IIT Bombay 2023–Present
AI/ML Training Certificate – NASSCOM May 2025 – Jul 2025
Certified SOC Analyst – EC-Council Mar 2026

Achievements

- Winner – Ideathon 2025 (Smart Surveillance Idea)
- Designathon 2025 – Participant
- Smart India Hackathon – Internal Round Participant
